Bounty Boulevard State School Whole School App List 2025

If your child has their own device, all apps listed on the Whole School App List are to be installed by Friday Term 1, Week 2.

QR code or App link provided on the next page can be use to download required App.

Installing and Managing Apps at home:

Parents are responsible for the purchase of all required school apps, as well as ensuring the device and apps are regularly updated. Once the apps are purchased, they are the property of the purchaser (parent/student). Option one also allows for family sharing of apps to occur.

Family Sharing makes it easy for up to six family members to share iTunes, iBooks and App Store purchases and iCloud storage plan. Your family can also share a photo album, calendar, reminders and even help locate each other's missing devices. Please be aware of enabling photo sharing across devices as this can impact storage space.

To participate in Family Sharing, all family members must have their own Apple ID. Children under 13 cannot create an Apple ID on their own. However, as a parent or legal guardian, the family organiser can provide verified parental consent for a child to have their own Apple ID, then create it on the child's behalf. If your child already has an Apple ID, you can update their email address, date of birth, security questions and more. When you create an Apple ID for a child, it will be added to your family group automatically. To view more information on Family Sharing or how to set it up, please follow this link:
https://support.apple.com/kb/index?page=search&q=family%nic&src=support_searchbox_psp&locale=en_US&q=family+sha ring

While the current cost to purchase all of the apps is currently sitting just under $10.00, the booklist has been reduced to support this cost. A semester by semester review will take place of the app list and possible additions to the list of apps may occur. All changes will be communicated to families. Should you select this option, all apps listed in the app list, including the paid app, are required on the device by Friday Term 1, Week 2.

*All Queensland state school students can download multiple free copies of the latest Microsoft Office to their personal home computers and mobile devices.

Students will need to use their school email address and password to sign in. Student's email addresses are their MIS username @eq.edu.au. Students who don't know their MIS username should contact their class teacher.

DO NOT sign up for any trials of the Microsoft Apps – all Education Queensland students can access these apps for free.
