2019 Student iPad Participation Agreement (AWAT Year 3, 4 & 5)

Dear Parents/Carers,

Each year students and parents will be required to sign the Student iPad Participation Agreement.

Please discuss the participation agreement with your child, so that your child is aware of the acceptable use of their iPad whilst at Bounty Boulevard State School, as well as the consequences for not adhering to the participation agreement.

iPads were introduced at Bounty Boulevard State School to further enhance a seamless learning environment between home and school. Students will be able to use their own personal iPad at school to support their learning within a secure internet filtered environment. Other students are not permitted to use your child's iPad.

The classroom teacher will support your child with the configuration of their iPad to access the approved Department of Education (DoE) Internet service as well as the use of applications throughout all stages of learning. The range of apps provides students the opportunity to create digital content, including audio and video production, digital stories, eBooks, music composition, digital image editing and dynamic presentations.

There are two ways in which your child's iPad can be managed to ensure they have all of the required school apps, and that the device and apps are regularly updated.

Option one: Parents are responsible for the purchase of the required school apps, as well as ensuring the device and apps are regularly updated. To download the required school apps, parents and carers are invited to use the current iTunes U course (FPY-PSF-TTC) and go to the BBSS App List. The current cost to purchase all of the apps is approximately \$30 (which includes the optional app *Explain EDU*). Once the apps are purchased, they are the property of the purchaser. This option allows for family sharing of apps to occur. This means that should you have three children in your family, you can purchase the school apps one time and those same apps can be shared to the other two children's devices.

Option two: Parents sign their child up for Bounty's Mobile Device Management system called Lightspeed, for a cost of \$20. Lightspeed will allow school-based apps to be "pushed out" to iPads, and automatically update the apps when required. When your child leaves Bounty (unenrolled student), the apps are removed from the device. The \$20 payment covers the cost of Lightspeed registration and the required school-based apps. Should you wish to sign your child up for Lightspeed, please download the Digital Resource Scheme Form from the school website or collect one from the office, and return with the \$20 payment.

PLEASE TURN OVER

Only students who have returned the 2019 Student iPad Participation Agreement will be granted approval to use their iPad at Bounty Boulevard State School in 2019. A two week period at the beginning of the year will allow all students the opportunity to complete the agreement and submit to the school office. Therefore, this form and the Third Party Consent Form are due by Friday 15th of February.

Yours sincerely,

Tim Adsett
Deputy Principal
